Morgansfort!

Morgansfort: The Western Lands Campaign is the first published campaign setting for the **Basic Fantasy Role-Playing Game**. This module includes a brief description of the Western Lands: a campaign adventure area consisting of the remnants of a once-great empire, a pair of important free cities, and a vast wilderness territory, plus Morgansfort, a detailed "home base" for adventurers set in the Western Lands.

Also included are three adventures designed for a party of new player characters, comprising a total of six dungeon levels: **The Olde Island Fortress**, a two-level dungeon environment suitable for beginning adventurers, located near Morgansfort; **The Nameless Dungeon**, a three-level dungeon designed to be a bit more challenging; and **The Cave of the Unknown**, a one-level dungeon filled with strange monsters led by a fearsome master.

Morgansfort: The Western Lands Campaign is designed for use with the Basic Fantasy Role-Playing Game Core Rules, available for free online at www.basicfantasy.org or in print at our Lulu.com storefront, but it is quite possible to use this module with other "old-school" or "simulacrum" game systems. Please visit our website for additional adventures, rules supplements, character sheets, and other tools and documents for use in your game. Support and advice is available on our web forum (just follow the link on the main site). All online materials and tools at www.basicfantasy.org are entirely free.
